The key messages – what can the CAP do better?

- High quality habitat on at least 10% of farmland
 - Conditionality PLUS voluntary incentives PLUS recognition and advice
- Scale up
 - At least 10% quality habitat in the landscape
 - Birds need landscape scale
 - Cooperation and incentives to collaborate
- Multidisciplinary
 - Farmers working with environmental groups, with other land managers, with hunters, volunteers
 - Cooperation and European Innovation Partnership pilots
- Farm advice and knowledge sharing
 - Farm advice combining economics with biodiversity
 - Continuing professional development of farm advisors
- Flexible
 - Less prescriptive and more result
 - Results-based approach
 - Find solutions locally
